Commonwealth Comprehension

The Commonwealth

The Commonwealth is a group of 52 countries that were all once part of the British Empire. This means they were once under British rule. The Head of the Commonwealth is Queen Elizabeth II. Countries that are part of the Commonwealth are found all around the world.

History of the Games

The first games took place in 1930, in the city of Hamilton in Canada. These were known as the 'British Empire Games' and featured 11 countries competing across 6 different sports. However, women were only allowed to compete in the swimming events. The number of countries taking part has gone up to 72 over the years.

Sports

In the first games, there were 6 sports that took place. These included boxing, diving and athletics. As the games have gotten larger so have the number of sports. In 2022, there will be 19 sports that take place which include badminton, hockey and netball.

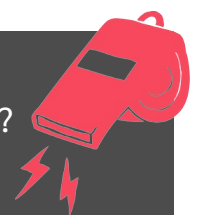

2022 Birmingham Game

This year's games are being held in Birmingham for the first time. It takes place between 28th July and the 8th August across Birmingham.

In total, 283 gold medals will be handed out across 19 sports. These will also be the first Commonwealth Games where there will be more events for women to compete in than men. How times have changed!
